AUDITOR'S REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

TO : MINISTER OF FINANCE

The State Audit Office of the Kingdom of Thailand has reviewed the statement of financial position of the Export-Import Bank of Thailand, as at June 30, 2021, and the statement of profit or loss and other comprehensive income for the three-month and six-month period ended June 30, 2021, statement of changes in equity and statement of cash flows for the six-month period then ended, and the condensed notes to the financial statements. The Bank's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard No. 34: Interim Financial Reporting. The responsibility of the State Audit Office of the Kingdom of Thailand is to express a conclusion on this interim financial information based on the review.

**Scope of review**

The State Audit Office of the Kingdom of Thailand conducted the review in accordance with Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable the State Audit Office of the Kingdom of Thailand to obtain assurance that the State Audit Office of the Kingdom of Thailand would become aware of all significant matters that might be identified in an audit. Accordingly, the State Audit Office of the Kingdom of Thailand does not express an audit opinion.

**Conclusion**

Based on the review, nothing has come to the attention that causes the State Audit Office of the Kingdom of Thailand to believe that the interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard No. 34: Interim Financial Reporting.

The practice as follows:

#### Loan Staging

1) Loans that are not yet non-performing (Non-NPL) are classified as performing loans immediately provided that analysis of its status and business shows that the debtor is able to comply with the debt restructuring agreement without compliance monitoring. Such debt restructuring is considered a pre-emptive debt restructuring, not a troubled debt restructuring (TDR).

If it is a provision of assistance to debtors in accordance with the Bank of Thailand's circular No.TorPorTor.ForNorSor.(01) Wor.380/2563 dated March 26, 2020 regarding Additional Relief Measures for Borrowers affected by the COVID-19 Pandemic, the debtor remains at the stage as before.

2) Non-performing loans (NPL) are classified as performing loans if the debtor is able to make repayment in accordance with the debt restructuring agreement for 3 months or 3 installments consecutively, whichever is the longer period.

3) Additional working capital loans provided to a debtor in order to support liquidity and enable the debtor to continue its business operations during the debt restructuring are classified by account level if the debtor has cash flows to support its repayment or if, considering other factors, the debtor has ability to repay its debts.

### Provisioning

If the debtor has unused credit line, the expected credit losses are able to be considered on the outstanding balance of the drawn down portion only.

For measurement of expected credit losses, weight of forward - looking information arising from temporary crisis is taken into consideration which the Bank gives less weight to forward - looking information than historical information reflected the debtor's repayment ability.

Major points can be summarized as follows:

1) Financial institutions shall consider debt restructuring with all the above debtors who cannot return to servicing their debt per the existing loan contract. While the debt restructuring is in the process, financial institutions can maintain the debtor's loan classification as before until December 31, 2020. 2) If the debtor's cash flow assessment cannot be undertaken, which prevents completion of the debt restructuring process by December 31, 2020, financial institutions may provide assistance to the debtor by deferment of principal and/or interest payment for a period appropriate for their debt servicing ability, which should not be more than six months from the end of 2020, while their loan classification can remain at the stage as before. In this regard, financial institutions action must be taken to find ways to restructure their debt without further delay.

However, during the debt restructuring process under 1) and loan payment holiday under 2), the financial institutions cannot charge interest at the default rate or service fees, penalties, or any other additional expenses from the debtor. For the collection of principal and interest calculated during the debt restructuring or loan payment holiday, financial institutions shall find ways that will not cause excessive burden on the debtor and not allow lump sum collection at the end of the payment holiday period.

## 2.4 Revised Thai Financial Reporting Standards (TFRS) but not yet Effective

The Federation of Accounting Professions has issued the TFRS, which revised from the 2020 version and have been announced in the Royal Gazette on June 28, 2021, but are effective for the financial statements beginning on or after January 1, 2022. These TFRSs were revised about interest rate benchmark reform – phase 2 and extension of the temporary exemption from applying TFRS 9 Financial Instruments in TFRS 4 Insurance Contracts, consisting of 3 TFRSs as follows:

TFRS 4	Insurance Contracts
TFRS 7	Financial Instruments: Disclosures
TFRS 9	Financial Instruments

The Bank is presently considering the potential impact of the above TFRS. The Bank has not early adopted these TFRS before the effective date.

#### 4. ESTIMATES AND ASSUMPTIONS

In preparation of the financial statements in conformity with Thai Financial Reporting Standards, the Bank has to set up estimates and assumptions that affect the application of accounting policies, the reported amounts of assets, liabilities, revenue and expenses and the disclosure of contingent assets and liabilities. However, the actual results may differ from the estimates.

The Bank reviews the estimates and assumptions on a regular basis. Changes in accounting estimates are recognized in the period in which estimates are revised. If the changes in accounting estimates affect only that period, and recognized both in the period in which such estimates are reviewed and future periods. If the change in accounting estimate has an effect on both the current and future periods.
