

EXIM Thailand Hands Over Child Spacers to Thammasat University Hospital

Dr. Mas Tanyongmas (far right), Director and Member of the EXIM Thailand's Corporate Governance and Social Responsibility Committee, and Mr. Pisit Serewiwattana (second right), President of Export-Import Bank of Thailand, recently delivered spacer devices for children to Assoc. Prof. Chittinad Havanon (third right), Director of Thammasat University Hospital, and Assoc. Prof. Orapan Poachanukoon (third left), Director of Center of Excellence for Asthma and Pulmonary Diseases at Thammasat University Hospital. Under the CSR policy, the Bank's executives and staff join in a campaign to assemble asthma inhaler spacers, plastic containers with a mouthpiece at one end and a hole for the inhaler at the other to help ill children get more of the asthma medicine, for donation to the Hospital and other hospitals in the communities where EXIM Thailand's provincial branches are located.
